CASPER PENNINGS

About

Everything evolves around racing, if I'm gaming it's mostly in racing games. If I'm mountain-biking or skiing, I need to be the fastest. And if it has wheels, I can race with it.

I'm also very social, I always try to be with friends up to a fault: I'm kind of bored when I'm alone. I also prefer to be outside.

2026

● FIM Moto4 Northern Cup

Best finish: P4 on 0.005s in Oschersleben

Led the race on P1 in Balaton and Oschersleben

Currently P12 due to 4 DNFs

● FIM MiniMoto 190

2x P1. on 3rd event in Assen (4 Apr), missed first 2 due to scheduling conflicts with Moto4. Trained only 3 times on the Ohvale in 2026.

2025

● FIM MiniGP WK

Q6 in Final race, only Dutch result in the end race.

P9 on world ranking, only Dutch participant that made it to the finals twice.

● FIM MiniGP 190 NL

P2 overall. Not a good season with lots of mechanical issues, half the season due to front-suspension issues and twice engine failure.

- Moto3: March through July

Training with Honda NSF 250R at TT Assen on track days,
best time: 1.51.4 (long layout).

On track days it's hard to get an unhindered full lap, so the
focus is on sector times, which gives a theoretical 1.50.4.

- Moto3: Jan though March

Training in Spain on Circuit Aspar.

2024

- Moto3: December

Third day of Training. Spain, Ricardo Tormo Valencia: 1.46.1

Second day of Training. Spain, Circuit Cartegena: 1.43.0

First day of Training. Spain, Circuit Aspar: 1.15.7

2024

- FIM World Series MiniGP 160: October

P6 in free practice

P13 overall (due to crash in second race)

Due to flooding in Valencia, the event was held in Aragon.

But we weren't prepared for the conditions (9 degrees, rain
and large track). So this was not our event, although we
prepared for it for 2 years.

- FIM MiniGP 160 Netherlands series:

P1. Dutch champion

Lots of issues with the motor, but Casper managed to turn
that around at the end.

- FIM MiniGP 160 Germany series

P2. Second place

We missed first weekend due to an injury and with only 5
weekends this was hard to catch up.

- FIM MiniGP 160 Austria series

Round 1 and 2: missed due to injury

Round 3: P2 and P3

Round 4: P2 and DNF (crash while P1).

2023

- FIM MiniGP 160 Germany series

P3. Third place

Crashed twice in the first race weekend, and with Fynn Kratochwil taking all P1 places the battle was mostly with number P2. But as we never rode on any of the tracks and this was our first MiniGP competition, we were very satisfied. Scott Deroue was along as Riders Coach, Julian van Kalkeren rode with him on the training day before the race-day. Hans van Kalkeren was with us for technical support.

- FIM MiniGP 160 Austria series, august

2x P3.

There was a lot of bad weather and a lot of engine problems. However, the races were in hot dry conditions.

2022

- Dutch Championship Ohvale 110

P1. Dutch Champion

This was a competition with 12 riders and 4 matches. After 3 matches Casper was undefeated and couldn't lose the championship anymore.

- FIM European Championship Ohvale 110

P1. European Champion.

- Molenaar NSF100 Championship

Rookie champion.

- ADAC Minibike Ohvale 110 - Oschersleben, June 2x P1, first international event.

2021 and before

- 2021 Dutch Championship pocket-bike, Junior B
P3. Third place
Junior B is for children 9-13 and he rode this competition with a 4 stroke 70 cc.
- 2021: Training with Ohvale 110
- 2021: Training with NSF100: September - October 2021
- 2021 September: Dutch Ohvale 110 Race
He was very slow so we replaced the (training) bike in the second race with a new one. With that bike he rode from P14 to P4. So the training bike wasn't competitive.
- 2020: Dutch Championship pocket-bike, Junior B.
P6. Sixth place.
This was Casper's first competition. He was actually a year too young to enter, but his speed was competitive enough so this was an excellent result.
- 2019 and before: Rode with Race-Kids.nl on parkings on pocket bikes.

References (on request)

- People who have seen Casper ride and know what he can do:
 - Scott Deroue (Riders Coach)
 - Erik Cornelis (head of motorsports KNMV)
 - Bert Deroue (Dutch Ohvale supplier).
